

DOM užduotis:

The image shows a web application titled "Tip Calculator". It features a blue header bar with the title. Below the header, there is a light blue input field containing the value "\$56.32". Underneath this field is a slider control for the tip percentage, with "25%" labeled on the left and an orange dot indicating the selected value. At the bottom, there are two orange output boxes: the first is labeled "Tip" and contains "\$14.08", and the second is labeled "Total" and contains "\$70.40".

Category	Value
Input	\$56.32
Tip Percentage	25%
Tip	\$14.08
Total	\$70.40

Parašykite arbatpinigių skaičiuoklę, kaip parodyta paveikslėlyje: įvedama suma, pasirenkamas arbatpinigių dydis procentais ir į puslapį išvedama arbatpinigių suma „Tip“ ir bendra sąskaitos suma „Total“.
